Perhydroazulenes – A New Class of Liquid Crystalline Materials

Henning Hopf,* Zakir Hussain, Rajeev S. Menon, Vitaly Raev, Peter G. Jones,* Ludwig M. Pohl *Synlett* **2011**, 1273.

In this recent publication the following deposition footnote for the X-ray structure determinations was accidentally omitted: Crystallographic data have been deposited with the Cambridge Crystallographic Data Centre as supplementary publications no. CCDC-784418 (**9**), -784419 (*anti-16*), -828814 (*syn-16*). Copies of the data can be obtained free of charge from www.ccdc.cam.ac.uk/data_request/cif.
