

Erratum

Synthesis and Absolute Configuration of the 7-Phenylhepta-4,6-diyne-1,2-diol Isolated from *Bidens pilosa*

Shan Cui, Yang Zou, Yikang Wu,* Po Gao* *Synthesis* **2011**, 2131.

The configurations for the starting epoxides (*R*)-**3** and (*S*)-**3** were incorrectly drawn; the two structures should be exchanged with one another. The configurations for all intermediates and end products were correct, as further secured by the following optical rotations: for (*R*)-**4**: $[\alpha]_{\text{D}}^{23} -16.9$ (*c* 1.0, CHCl₃) {Lit.^{3a} $[\alpha]_{\text{D}}^{25} -16.4$ (*c* 1.035, CHCl₃)}; for (*R*)-**5**: $[\alpha]_{\text{D}}^{23} -12.4$ (*c* 0.63, CHCl₃) {Lit.^{3a} $[\alpha]_{\text{D}}^{25} -12.1$ (*c* 0.62, CHCl₃)}.
