

RöKo International

Invitation

Dear colleagues,

On behalf of the German Röntgen Society (Deutsche Röntgengesellschaft e.V.) it is our great pleasure and honor to invite you to the 97th Annual Meeting of our Society: the German Röntgen Congress that will take place May 4th – 7th, 2016 in Leipzig. For the second time we will offer a special program in English – RöKo International.

In 2016 we picked “The Future of Radiology” as one of the central themes. Experts from the USA, Asia, and Germany will overview the American, Asian, and European perspective followed by a discussion with the audience. This will be just one highlight of RöKo International, which is a platform where speakers and guests from different countries come together and discuss essential topics of radiology from their experience and point of view. All sessions are designed for any level of qualification or language skills.

The German Röntgen Congress is a major scientific event: join more than 7000 annual visitors, who have turned the meeting into the second largest Congress of medical imaging in Europe. You are welcome to visit also one of the largest industry exhibitions at a national congress: 149 companies show a wide range of products and services on 10 000 square meters.

We are looking forward to welcome you in May 2016 in Leipzig!

Sincerely yours,

Prof. Dr. Birgit Ertl-Wagner, M.D.

Prof. Dr. Michael Forsting, M.D.
