A New Beginning

Anirudh Kohli¹¹Breach Candy Hospital Trust, Mumbai, Maharashtra, India

Indographics 2022;1:1.

It has been a long journey for IJRI since its inception in 1947. Over the years it has grown to becoming an Indexed voluminous journal. IJRI receives more than 1000 articles every year resulting in a high rejection rate, the focus is on new information in imaging sciences. Often many articles are review articles to refresh the knowledge of practicing radiologists, which can be of great use in their daily practice. Essentially in view of these two points, high rejection rate and need for continuing education IRIA mooted the idea of a

new journal to fulfil these requirements. Thus we present to you the new IJRI journal **Indographics**.

IJRI will stay as the scientific flag bearer of IRIA. Indographics will be the informative educative journal. Hope you enjoy the inaugural issue of **Indographics**.

Long Live IRIA!
