Erratum

In the paper “Mucosal IgA Response to Repeated Wingate Tests in Females” by M. M. Fahlman et al. (Int J Sports Med 2001;22: 127 – 131), an incorrect unit has been printed in table 2 “Saliva analysis” on page 129: The total protein concentration is given in mg/ml (rather than µg/ml). We apologize for this mistake..
